### Profile

As a **.Net** developer specialized in back-end development, I aim to continue working in this field and eventually become a tech lead for the development of scalable, large-scale applications.

## EXPERIENCE & PROJECTS :

- **Travel Agency** API Travel Agency streamlines bus bookings. 
- **portfolio** Portfolio management system with web MVC/API. 
- **Zaker** Education website for students and teachers. 
- **Department Stock** A web app to optimize inventory management using a centralized database, barcode/RFID scanning and an API ( Private Repository )
- **Postgraduate Management System** Postgraduate Management Systems automate administrative tasks involved in postgraduate education, improving efficiency and effectiveness of the program ( Private Repository )
- **Store - ECommerce** API project built using .NET Web API Core 7.0. The API includes JWT-based authentication and utilizes the repository pattern and Entity Framework Core's code-first approach. Auto Mapper and DTOs are used for presentation requests.
